

Regional Vision Casting Opportunity

Todd Phillippi will be here on the 28th, 29th and 30th this month
He will be leading us in discussions on how we can incorporate our
new property into God's ministry for this region.

There will be three sessions at the Hague Campus:

- Friday Night at 6:30 - Ministry Leaders
- Saturday Afternoon at 1:00 – Entire Congregation
- Sunday after church with the Church Board.

Todd Phillippi is a Christ-follower and architect that specializes in facilities for churches. He was not raised in the church but came to know the Lord in his teens through a supernatural encounter that has framed his life ever since. He has a passion for the church to be the church as communicated in the scriptures - not as a building for people to go to. This passion constrains him to design buildings as tools for ministry rather than as monumental edifices. In addition to his professional work with churches, Todd has served in numerous capacities in his local church,

teaching adult Bible studies, leading a large men's ministry and building small groups. His wife, Patty, is a hospital chaplain, and they are actively involved together in supporting mission work, including an outreach to Muslim refugees in France. They have five grown children and two energetic grandsons. Todd's other passions include hiking, horticulture, photography and coffee (which he has been home-roasting for the past 15 years).
